Which makes me wonder.  
It is a valid concern for the fairly obvious Strangelovian reasons.  
Like those Zombie lies.  
: Economic good news?  
Maybe it is time they switched gears, and expanded a law that is currently on the books for Corporations to regulate the Government's own Financial reporting.  
Mac accounts for new mail.  
Just the fact that before his righteous fight for upholding the rights of the Guantanamo detainees, and his attempt to legislate the Hamdan decision, he tried to subvert said decision.  
If you think we can be complacent for a little while, think again.

This turns the Strangelovian idea upside down.

The guy above should switch to Linux.

Again, why is this extreme?

You can't do that without our permission.

Aren't lots of people losing money because of it?

So how about writing about that.

They got approval the old fashioned way, they said they would put a warning about potential liver failure.

Cuz there is actual empirical evidence that Republicans are split to that effect
