

SOCIETYNOW

Short, informed books,
explaining why our world
is the way it is, now.

'*A World Beyond Work?* offers a blueprint to develop a future against and beyond capitalism. This will be an essential read for the next decade.'

Dr Mònica Clua Losada, The University of Texas Rio Grande Valley

'This is a book about hope and creativity at a time of narrow horizons and bleak pessimism. It brings us a world with new possibilities. A must!'

Alfredo Saad-Filho, King's College London

IN AN AGE of crisis, advocates of a post-work society sense the possibility of a utopian escape from work aided by the automation of production and a universal basic income. Arguing that these transitional measures may stifle rather than stimulate transformative social change, Dinerstein and Pitts critically unpick the political economy of contemporary work and its futures, outlining a radical alternative rooted in 'concrete utopias'.

ANA CECILIA DINERSTEIN is a Reader in Sociology
