## 1 for 7 Billion Campaign

On 1 January 2017 a new United Nations Secretary-General will take office. From climate change to armed conflicts, from extremism to pandemics and migration to citizenship, many of the world's most crucial problems transcend borders and require global solutions. The 1 for 7 Billion Campaign aims to tackle these World Governance and Citizenship challenges: the United Nations need strong and representative leadership.

Join the 1 for 7 Billion Campaign, for an action-oriented event to explore how to get involved in the selection of the next UN Secretary-General and make your voice heard in a world citizen movement !
